PSYCHOLOGY

Psychology is the scientific study of behavior and cognitive processes. Using the scientific method, this discipline examines thoughts, emotions, and behavior from biological and psychological perspectives. Courses in psychology satisfy general education requirements for an associate degree for transfer in psychology, and lower division transfer. The Honors Program includes PSY 101H Introduction to Psychology - Honors.

Leadership Course
The program is unique in that one of its goals is to ensure the continuation of quality student representation in the participatory decision making efforts of the Citrus Community College District. The program seeks to instill within its students a practical sense of dynamics within an organization and some of the techniques that leaders utilize to enhance the effectiveness of the group as well as how to run meetings through the proper use of parliamentary procedure. In addition, the program places a heavy emphasis on self-knowledge based on reflection.

Learning Outcomes

This discipline prepares students to do the following:

• Demonstrate analytical and critical analysis skills using college level vocabulary and writing skills for the purposes of successfully navigating a tible level course.

• Demonstrate proficiency in analyzing or manipulating numerical data in order to critique scientific study to gain perspective of the role of data in psychological research and research methodology.

• Analyze a variety of behavioral science research designs to develop critical analysis needed for transfer level coursework.

• Demonstrate analytic thinking by comparing and applying psychological theories to human behavior to relate classroom theory to real-world examples.

• Demonstrate proper use of basic word processing and computing skills through research, synchronous and asynchronous communication, and written essay to access information available only through technological means to improve technology skills necessary in a global environment.

• Explore issues of efficacy and self-exploration to benefit from the unique content of course work in psychology.

Courses

LEAD 103
Foundations of Leadership
3 Units (AA/AS; CSU; UC; CSUGE E)
54 lecture hours
Grade Mode: Standard Letter
Strongly recommended: ENGL 101.
A survey of the foundational theories and applications of leadership. Leadership is examined from the individual to its applications in the team and organizational settings. Emphasis is placed on the development of the student as a leader. This course is required either as a corequisite or prerequisite to holding a leadership position in the campus’ student government association.

PSY 101
Introduction to Psychology
3 Units (AA/AS; Citrus D2; CSU; UC; IGETC 4I; CSUGE D9)
54 lecture hours
Equivalent to: PSY 101H, PSY 201
Grade Mode: Pass/No Pass, Standard Letter
Strongly recommended: ENGL 101.
The course is an introduction to psychology as an empirical science involving a synthesis of theory and research within the domains of behavior, cognition and affect. Students are expected to work and participate using critical thinking skills, thoughtful analysis/synthesis of readings, presentations and discussions within the class environment.

PSY 101H
Introduction to Psychology - Honors
3 Units (AA/AS; Citrus D2; CSU; UC; IGETC 4I; CSUGE D9)
54 lecture hours
Equivalent to: PSY 101
Grade Mode: Standard Letter
Prerequisite(s): Student must be eligible for the Citrus College Honors Program or obtain a recommendation from an Honors instructor.
Strongly recommended: ENGL 101.
The course is an introduction to psychology as an empirical science involving a synthesis of theory and research within the domains of behavior, cognition and affect. Students are expected to work and participate at an honors level which includes demonstrating strong critical thinking skills through analysis of social scientific literature and original research in a seminar style class format.
An introductory course in research methodology designed for students in the social and behavioral science areas. The development of basic skills in descriptive statistics and inferential statistics is stressed. Students in the social and behavioral science areas. The development of basic skills in descriptive statistics and inferential statistics is stressed. Ethical standards for human and animal research are discussed in the context of both invasive and non-invasive experimental research.

PSY 203
Research Methods in Psychology
4 Units (AA/AS; CSU; IGETC 2A; UC; IGETC 4I; CSUGE D9)
54 lecture hours, 54 lab hours
Equivalent to: PSY 104
Grade Mode: Standard Letter
Prerequisite(s): PSY 101 or PSY 101H; PSY 103 or MATH 165. Strongly recommended: ENGL 101. An introductory course in research methodology designed for students in the behavioral and social sciences. The application of basic skills in descriptive and inferential statistics is stressed, as well as critical analysis of experimental and non-experimental research methods in basic and applied research settings.
PSY 225
Psychology of Human Sexuality
3 Units (AA/AS; Citrus D2; CSU; UC; IGETC 4I; CSUGE D9; CSUGE E)
54 lecture hours
Grade Mode: Pass/No Pass, Standard Letter
Strongly recommended: ENGL 101.
An introductory survey of the psychological bases and dimensions of human sexuality with emphasis on the socio-cultural factors involved in intimate relating, sexuality, and loving.

PSY 226
Psychology of Women
3 Units (AA/AS; Citrus D2; CSU; UC; IGETC 4I; CSUGE D4; CSUGE D9)
54 lecture hours
Grade Mode: Standard Letter
Strongly recommended: ENGL 101.
This course will examine theory and research on female development from birth to death, taking into consideration psychological, sociological and biological factors. Implications for personal and social change will be emphasized through critical analysis of contemporary gender issues, data and psychological theory.
