## Catalog Course Description

Students will gain knowledge of developmentally appropriate art activities to use with preschool and early-school age children. Students will evaluate art and crafts materials used with children to nurture the development of creativity. Students will design developmentally appropriate art curriculum and explore ways to support creative thinking and experiences for children. Students will gain appreciation for art and creative thinking within diverse cultures and society at large. 54 lecture hours.

## Course Objectives

- Develop and implement an art curriculum based on principles of child development and developmentally appropriate practice.
- Analyze and describe the development of children's art and how this reflects development in other areas.
- Compare and contrast art and crafts within the children's program for the specific purpose of planning curriculum that facilitates creative thinking.
- Evaluate children's art programs based on the principles of child development specific to creative expression.
- Develop a parent education program that informs of the purpose of early childhood art curriculum and the importance of creativity art experiences.
