

GENERAL EDUCATION REQUIREMENTS FOR TRANSFER TO CSU OR UC (IGETC): OPTION III

University of California

The University of California System (UC) consists of 10 campuses:

- Berkeley
- Davis
- Irvine
- Los Angeles
- Merced
- Riverside
- San Diego
- San Francisco (Medical Center)
- Santa Barbara
- Santa Cruz

Each campus within the UC system has its own unique geographic and academic character. The UC offers bachelor's, master's, and doctoral degrees in a variety of subject areas.

Articulation agreements between California Community Colleges and individual UC campuses can be found on the Assist website (<http://www.assist.org>). Articulation agreements can help identify courses to select for course transferability, major preparation and general education requirements.

Many UC campuses offer individual admission agreements that guarantee students space on campus or in a particular major, provided they complete specific academic requirements while at a community college. Citrus College has Transfer Admission Guarantees (TAGs) with Davis, Irvine, Merced, Riverside, Santa Barbara and Santa Cruz. Students are urged to secure UC admission by submitting a TAG during the TAG application filing period, September 1 - 30. TAG criteria can be found at www.universityofcalifornia.edu/admissions/transfer/index.html (<http://www.universityofcalifornia.edu/admissions/transfer/>).

Transfer Eligibility Requirements

The UC considers a student a transfer applicant if they are enrolled in a regular session at a college or university after high school, not including summer session. The student's college record cannot be disregarded; they cannot apply as a freshman. A maximum of 70 semester units of transferable credit will be accepted for courses completed at a community college.

The UC gives junior-level community college students first priority over other transfer applicants, including those from four-year institutions and UC's own intercampus transfer students.

Junior-Level Transfer

To be considered for UC admission as a junior, you must fulfill both of the following:

1. Complete 60 semester (90 quarter) units of transferable college credit with a GPA of at least 2.4 (2.8 if you're a nonresident). No more than 14 semester (21 quarter) units may be taken Pass/No Pass.
2. Complete the following course pattern requirements, earning a grade of C or better in each course:
 - Two transferable college courses (3 semester or 4-5 quarter units each) in English composition
 - One transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning
 - Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas:
 - arts and humanities
 - social and behavioral sciences
 - physical and biological sciences

Each course in this pattern must be worth at least three semester units and you must earn a grade of C or better in each course. For information about which community college courses are UC transferable and which are approved for UC Transfer Admissions Eligibility, visit www.assist.org (<http://www.assist.org>).

Lower-Division Transfer

While all UC campuses welcome a large pool of junior-level transfers, most admit only a limited number of lower-division students:

- If you were eligible for admission to UC when you graduated from high school – meaning you satisfied the subject, examination and scholarship requirements or were identified by UC during your senior year as Eligible in the Local Context (ELC) and completed the subject and examination requirements in your senior year – you are eligible for transfer if you have a 2.0 GPA in your transferable college course work (2.8 GPA for non-residents).
- If you met the scholarship requirement in high school, but did not satisfy the 15-course subject requirement, you must take transferable college courses in the missing subjects, earn a C or better in each required course and have an overall 2.0 GPA in all transferable coursework to be eligible to transfer (a 2.8 GPA is required for non-residents).

Nonresidents

The minimum admission requirements for nonresidents are very similar to those for residents. Non-California residents must consult with the admissions office at one of the UC campuses for details. In all cases, however, nonresidents must have a grade point average of 2.8 or higher in all transferable college coursework.

IGETC Requirements

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit you to transfer from a community college to a campus in either the California State University (CSU) or the University of California (UC) system without the need, after transfer, to take additional lower division, general education courses to satisfy campus general education requirements. Completion of IGETC does not guarantee admission, nor is it required for admission.

The IGETC is not advisable for all transfer students. If you are pursuing a major that requires extensive lower-division preparation you may be better served by taking courses which fulfill the CSU General Education-

Breadth requirements or those of the UC campus or college to which you plan to transfer. Majors may include, but are NOT LIMITED to:

- Engineering,
- Business Administration,
- Computer Science,
- Pre-professional Schools and Sciences.

Certification: Be sure to request certification when requesting transcripts be sent to your choice of university or college. All courses MUST be completed with grades of "C" or better. Please consult with a counselor or advisor regarding the use of courses from other colleges or universities. Students who choose to use the IGETC pattern are expected to complete all of the requirements of the pattern before transferring to a UC or CSU campus. However, if a student is unable to complete one or two IGETC courses he/she may be eligible for partial certification. Students should consult with a counselor or advisor for details regarding this option.

AREA 1: English Composition

If you plan to attend a CSU choose three courses, one from each group.

If you plan to attend UC, choose two courses, one from Group A and one from Group B.
